POLICY ON PHYSICAL EDUCATION (PE)

Reviewed	Summer 2018	Next Review	Summer 2021
----------	-------------	-------------	-------------

Aims and objectives

PE develops the children's knowledge, skills and understanding, so that they can perform with increasing competence and confidence in a range of physical activities. These include dance, games, gymnastics, swimming and water safety, athletics and outdoor adventure activities. PE promotes an understanding in children of their bodies in action. It involves thinking, selecting and applying skills, and it promotes positive attitudes towards a healthy lifestyle. Thus, we enable the children to make informed choices about physical activity throughout their lives.

Our objectives in the teaching of PE are:

- to enable children to develop and explore physical skills with increasing control and coordination;
- to encourage children to work and play with others in a range of group situations;
- to develop the way in which children perform skills, and apply rules and conventions, for different activities;
- to show children how to improve the quality and control of their performance;
- to teach children to recognise and describe how their bodies feel during exercise;
- to develop the children's enjoyment of physical activity through creativity and imagination;
- to develop an understanding in children of how to succeed in a range of physical activities, and how to evaluate their own success;
- providing specialist support where individual children have particular gifts or talents.

Teaching and learning style

We use a variety of teaching and learning styles in PE lessons. Our principal aim is to develop the children's knowledge, skills and understanding, and we do this through a mixture of whole-class teaching and individual or group activities. Teachers draw attention to good examples of individual performance as models for the other children, and we encourage the children to evaluate their own work as well as the work of other children. Within lessons, we give the children the opportunity both to collaborate and to compete with each other, and they have the opportunity to use a wide range of resources.

In all classes, children have a wide range of physical ability. Whilst recognising this fact, we provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child. We achieve this through a range of strategies:

- setting common tasks that are open-ended and can have a variety of results (e.g. timed events, such as an 80m sprint);
- setting tasks of increasing difficulty, where not all children complete all tasks (e.g. the high jump);

CLANDON C of E SCHOOL

A caring community where all can THRIVE

- grouping children by ability, and setting different tasks for each group (e.g. different games);
- providing a range of challenge through the provision of different resources (e.g. different gymnastics equipment).

PE curriculum planning

PE is a foundation subject in the National Curriculum. Our school uses the national scheme of work as the basis for its curriculum planning in PE. We have adapted the national scheme to the local circumstances of the school. As required, we teach dance, games and gymnastics at Key Stage 1. The governors of the school have decided that we should also follow the non-statutory guidelines for Key Stage 1 in relation to swimming activities and water safety. 3.2

The curriculum planning in PE is carried out in three phases (long-term, medium-term and short-term). The long-term plan maps out the PE activities covered in each term during the key stage. The PE subject leader devises this plan in conjunction with teaching colleagues in each year group.

We use the national scheme of work as the basis for our medium-term plans. This gives details of each unit of work for each term. These plans define what we teach, and ensure an appropriate balance and distribution of work across each term. The subject leader keeps and reviews these plans.

Class teachers complete a daily plan for each PE lesson. This lists the specific learning objectives and expected outcomes, and gives details of how the lesson is to be taught. The class teacher keeps these individual plans, and the class teacher and subject leader often discuss them on an informal basis.

We plan the PE activities so that they build upon the prior learning of the children. While there are opportunities for children of all abilities to develop their skills, knowledge and understanding in each activity area, there is progression planned into the scheme of work, so that the children are increasingly challenged as they move up through the school.

Parents and carers will be informed which PE activities are led by approved instructors and not directly by a member of teaching staff.

The Foundation Stage

We encourage the physical development of our children in the reception class as an integral part of their work. As the reception class is part of the Foundation Stage of the National Curriculum, we relate the physical development of the children to the objectives set out in the Early Learning Goals, which underpin the curriculum planning for children aged three to five years of age. We encourage the children to develop confidence, control of the way they move, and care in the handling of tools and equipment. We give all children the opportunity to undertake activities that offer appropriate physical challenge, both indoors and outdoors, using a wide range of resources to support specific skills.

Contribution of PE to teaching in other curriculum areas

English

PE contributes to the teaching of English in our school by encouraging children to describe what they have done, and to discuss how they might improve their performance.

Mathematics

PE contributes to the teaching of mathematics by encouraging children to measure and record what they do accurately.

Personal, social and health education (PSHE) and citizenship

PE contributes to the teaching of personal, social and health education and citizenship. Children learn about the benefits of exercise and healthy eating, and how to make informed choices about these things.

Spiritual, moral, social and cultural development

The teaching of PE offers opportunities to support the social development of our children through the way in which we expect them to work with each other in lessons. Groupings allow children to work together, and give them the chance to discuss their ideas and performance. Their work in general enables them to develop a respect for other children's levels of ability, and encourages them to cooperate across a range of activities and experiences. Children learn to respect and work with each other, and develop a better understanding of themselves and of each other.

PE and ICT

Information and communication technology enhances the teaching of PE, where appropriate, in all key stages. In dance and gymnastics, children make video recordings of their performance, and use them to develop their movements and actions. Children use a concept keyboard to record the order of movements in their sequences of work. Music composed on the computer is sometimes used for creative dance. Older children compare each other's performances from recordings, and use these to improve the quality of their own work. A digital camera can record experiences during outdoor activities.

PE and inclusion

We teach PE to all children, whatever their ability or individual needs. PE forms part of the school curriculum policy to provide a broad and balanced education to all children. Through our PE teaching, we provide learning opportunities that enable all pupils to make good progress. We strive hard to meet the needs of those pupils with special educational needs, those with disabilities, those with special gifts and talents, and those learning English as an additional language, and we take all reasonable steps to achieve this. For further details, see separate policies: Special Educational Needs; Disability Discrimination; Gifted and Talented Children; English as an Additional Language (EAL).

When progress falls significantly outside the expected range, the child may have special educational needs. Our assessment process looks at a range of factors – equipment, teaching style, differentiation – so that we can take some additional or different action to

CLANDON C of E SCHOOL

A caring community where all can THRIVE

enable the child to learn more effectively. Assessment against the National Curriculum allows us to consider each child's attainment and progress against expected levels. This helps to ensure that our teaching is matched to the child's needs.

Intervention through School Action and School Action Plus will lead to the creation of an Individual Education Plan (IEP) for children with special educational needs. The IEP may include, as appropriate, specific targets relating to PE.

We enable all pupils to have access to the full range of activities involved in learning PE. Where children are to participate in activities outside our school (a sports event at another school, for example), we carry out a risk assessment prior to the activity, to ensure that the activity is safe and appropriate for all pupils.

Changing

In line with best practice guidance from the NSPCC, boys and girls in Key Stage 2 will, whenever possible change in separate rooms. Logistically this can be achieved by both classes changing at the same times so that boys can change in one room and the girls in the other room or by allowing one group to change in the area outside of the classroom. Adults must always change privately; never in the same space as children.

For children who require assistance with changing, please see the intimate care policy.

When using off-site changing rooms, such as at a public swimming pool, it is not appropriate for swimmers to share changing facilities with members of the public and enough time should be booked either side of the swimming session to allow pupils to get showered and changed. As far as possible, members of the staff should supervise or assist pupils of the same sex.

Assessment for learning

Teachers assess children's work in PE by making assessments as they observe them working during lessons. Older pupils are encouraged to evaluate their own work and to suggest ways in which to improve. Teachers record the progress made by children against the learning objectives for their lessons. At the end of a unit of work, teachers make a judgement against the National Curriculum levels of attainment. Teachers record this information and use it to plan the future work of each child. These records also enable the teacher to make an annual assessment of progress for each child, as part of the school's annual report to parents and carers. The teacher passes this information on to the next teacher at the end of each year.

The PE subject leader keeps photographic and video evidence of children's work (in a portfolio). This demonstrates what the expected level of achievement is in each area of PE activity in each year of the school. Teachers meet regularly to review individual evidence of children's work against the national exemplification material produced by the QCA and the Department for Children, Schools and Families.

Resources

There is a wide range of resources to support the teaching of PE across the school. We keep most of our small equipment in the hall and adjacent cloakroom, and this is

CLANDON C of E SCHOOL

A caring community where all can THRIVE

accessible to children only under adult supervision. The hall contains a range of large apparatus, and we expect the children to help to set up and put away this equipment as part of their work. By so doing, the children learn to handle equipment safely. The children sometimes use the local recreation ground for sports activities. Swimming lessons take place at Spectrum Leisure Centre, Guildford.

Health and safety

It is the general teaching requirement for health and safety that applies to this subject. We encourage the children to consider their own safety and the safety of others at all times. We expect them to change for PE into the agreed clothing for each activity area. The governing body expects the teachers to set a good example by wearing appropriate clothing/footwear when teaching PE. The policy of the governing body is that no jewellery is to be worn for any physical activity.

Extra-curricular activities

The school provides a range of PE-related activities for children at the end of the school day. These encourage children to further develop their skills in a range of the activity areas. The school sends details of the current club activities to parents and carers at the beginning of each term. The school also plays regular fixtures against other local schools. This introduces a competitive element to team games, and allows the children to put into practice the skills that they have developed in their lessons. These opportunities foster a sense of team spirit and cooperation amongst our children.

Monitoring and review

The coordination and planning of the PE curriculum are the responsibility of the subject leader, who also:

- supports colleagues in their teaching, by keeping informed about current developments in PE and provides a strategic lead and direction for this subject;
- gives the Headteacher an annual summary report in which s/he evaluates the strengths and weaknesses in PE and indicates areas for further improvement;
- uses specially allocated regular management time to review evidence of the children's work, and to observe PE lessons across the school.

The quality of teaching and learning in PE is monitored and evaluated by the Headteacher as part of the school's agreed cycle of lesson observations.
